SUMMER TIMETABLE
CLASS GUIDE

Mystery Tubs

Educational & Sensory

A fun varied expedition of the senses that builds observational skills, cause and effect, and fine motor skills via sensory bins. This class is welcome for a range of ages where we incorporate five of our senses in order to be stimulated, providing a grounding experience for your child where they can engage with the environment more deeply and in turn sharpen their focus.

Mini Masterchefs

Educational & Strategic

At Mini Masterchefs classes, your child will make fun and delicious recipes and will learn how and where certain foods are grown and where they come from. We encourage children to be adventurous with food and most importantly we want children to begin to enjoy cooking and baking at an early age. Each week we cook with a variety of fresh ingredients and we have themed weeks depending on the time of year and seasonality of the produce.

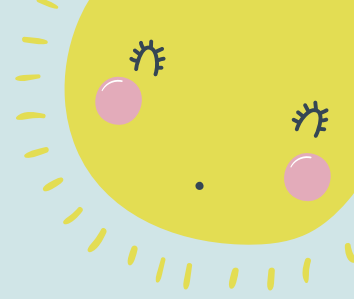

Mini Masterpieces

Creative & Interactive

“Every child is an artist. The problem is how to remain an artist once we grow up”

Pablo Picasso

The experience and process of creating art for your little ones is more important than the actual art they create. Your mini Picassos will be provided with a wide range of authentic materials from which to create their masterpieces. Ranging from natural materials; leaves, sticks and flowers, to chalk, spray water bottles, crayons and string. By providing a range of different materials, which all help to stimulate their imagination, your child will have the very best fun creating a work of art.

Sounds and Songs

Educational & Creative

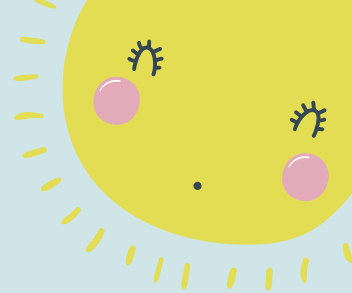

Our sounds and songs classes feature fun and interactive live music lessons and activities with the use of two or more instruments. From rhythm training and body percussion to singing high and low, each session is designed to get your child actively listening and learning about pitch, tempo and dynamics, to aid the development of language and speech.

Party Animals!

Creative & Interactive

Help! There are so many animals at The Cloud Twelve Zoo, but THEY'RE ALL MISSING! We need your kids to help BE all of the different animals to keep the zoo up and running. We have 30 animals and just 30 minutes — and the alphabet to guide us. What animal starts with a B? BEAR! Quick, act like a bear! Roar like a bear! Do other bear-y things! And on to the next...

Baby Ballet

Movement and Co-ordination

Introduce your little one to the joy of dance with our Baby Ballet class. Each week, our sessions focus on developing children's coordination, balance, and strength, while also introducing them to the basics of ballet technique, movement and rhythm.

Starting with a warmup and ending with a relaxing stretch, this class is the perfect way to start their morning.

Kidfit

Physical & Sensory

Move it and shake it in Cloud Twelve's Kidfit class! Our physical play classes have been especially designed to develop early physical skills, sensory awareness and to help your child channel their boundless energy.

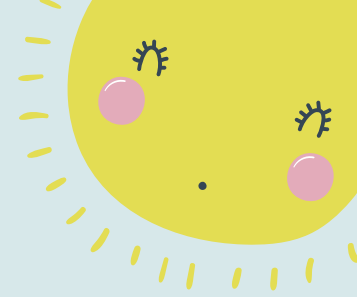

We use movement, music, learning and laughter to nurture ongoing skill development and boost self-esteem. Your child progresses at their own pace, having fun and building confidence as they develop new skills.

SEN-Stories

Creative & Interactive

Our sen-story classes provide engaging and interactive experiences for our members by introducing them to classic stories in fun and exciting ways. Through creative storytelling each story is brought to life by immersing children in an all-round sensory experience.

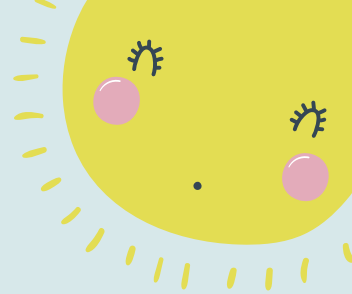

Messy Play

Sensory & Creative

You splash water, squelch gloop, splat paint, build creations and more themed activities in one class— we do the tidying up! Every week we have a different theme to let little ones explore and learn.

We help little ones discover the world around them and encourage their development in a space where creativity and imagination have no limits.

We explore different textures every week, working on their fine and gross motor skills, as they develop language, communication and socialisation skills through fun and messy play.

Dough Shop

Experimental & Creative

Modelling play-doh is a fantastic way to let your children explore their creative skills by creating masterpieces of all shapes and sizes.

Perfect for hand and eye coordination and creativity each of our themed sessions offer your little one the opportunity to tap into their imaginations via the medium of making, moulding and building.

Modular Minds

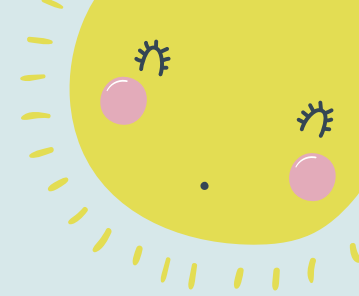

Educational & Strategy

Children will be entrusted with engineering a series of daring and imaginative buildings or objects inspired by the world around them, combining imagination with strategy and learning through play.

This class presents children with a STEM-focused challenge with the opportunity to practice problem solving, fine/visual motor skills, trial and-error – and plenty of opportunity to get creative.

Crafternoon

Creative & Experimental

Welcome to our exciting and imaginative craft class for kids! This is the perfect opportunity for your child to tap into their creativity and explore their artistic side. Each class is designed to be fun, engaging, and hands-on, providing the perfect environment for children to learn new techniques and make something truly unique.

We provide all the necessary materials and our experienced instructors will guide your child through each step of the creative process. Your child will be able to experiment with different materials and techniques, and will be encouraged to let their imagination run wild.

Make Believe Academy

Creative & Educational

Our Make Believe Academy weekly classes are a fun and exciting way for you and your child to actively experience the performing arts and to explore a world of imagination through songs, stories and much, much more. Each session will spark your child's creativity and self expression through role play exercises whilst also helping to improve literacy, numeracy, communication and social skills in a fun and engaging way.

Mother Nature

Experimental & Sensory

Join our sensory creation class utilising materials from nature, embracing elements of the environment to fuel creativity and sensory development.

Mad Scientist

Experimental & Educational

Join us for our Mad Scientists class sessions as we explore a new subject each week taught through hands-on experiments, videos and story-telling.

With amazing subjects like storms, the solar system and volcanoes, these innovative classes will help kids understand scientific principles explained in simple terms with fun experiments in which they can touch, see and hear to help them understand as well as inspiring an interest in the world around them.

Monkey Music

Creative

Dynamic music classes packed with learning opportunities, specially written Monkey Music songs and lots of wonderful instruments which the children play along with.

Boogie Bears

Interactive

Boogie Bears helps to build your child's confidence and listening skills using classic nursery rhymes and children's favourites.
